

Vital ICE INSTRUCTIONS FOR FIRST RESPONDERS

- 1 If the user has set up a custom lock screen image, their vital information will be available to you in bars bracketing the lock screen.
- 2 Locate the Vital ICE icon on the phone screen and click to open the app and have their vital information available to you to aid in their treatment.

- 3 The main page opens to their vital information. Scroll down for all of the information they have provided. If they have chose to do so, there will also be a green Voice Overview button that you can press and listen for more information.
- 4 If needed, the user can store their insurance card within the app so that you can have access to it.
- 5 You also have the option to email all of the information contained within this app to the ER or triage if you desire. Simply click on the Email My Information button in the More tab, and you will be able to enter the email address you wish to send it to.
